

## Modeling Exercise 3 Rules

The User always does A

If the User does A **AND**  
The User does B  
**THEN** C happens  
**ELSE** D happens

If the User does C  
**THEN** the User can only do one of the following: F, G, or I

If C happens And  
The User does either F or G  
Then H happens

If C happens **AND**  
The User does either G or I  
**THEN** J happens

If J happens  
**THEN** the User will always do Z

If J happens **AND**  
The User does Z  
Y happens

If D happens the User will always do X  
If D happens the User can either do K or not do K

If D happens **AND**  
The User does X **AND**  
The User does K  
**THEN** L happens

If D happens **AND**  
The User does X **AND**  
The User does not do K  
**THEN** M happens
