

Modeling Exercise 4 Rules

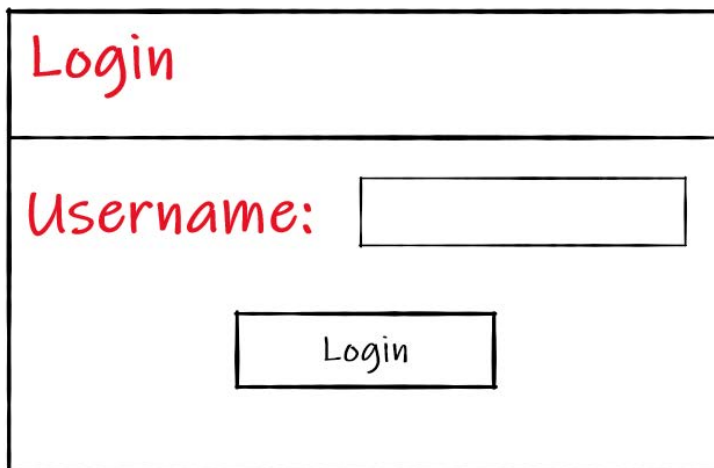

The Login prompt is displayed when the system is turned on

The User can enter a value in the "Username" field

When the "Login" button is clicked, the system will check for the value in the "Username" field

If the value in the Username field is a valid username, the User will be logged in

If the value in the Username field is NOT valid, Error Message 02 will be displayed

A hand-drawn diagram of a login form. The form is enclosed in a rectangular border. At the top left, the word "Login" is written in red. Below this, the label "Username:" is written in red, followed by a rectangular input field. At the bottom center, there is a rectangular button labeled "Login".
