SPEAKER

Evan Masters

Reducing Ambiguity in Requirements
Through Multi-Modal Communication

About Evan

- Based in Spokane, WA
- Been in SQA with Critical Logic since 2010
- Began as SQA Analyst, specializing in MBT
- Customer Success Manager & Product Owner
- BS Physics, MBA, CSM, SAFe certified
- Adjunct professor of Business Ethics

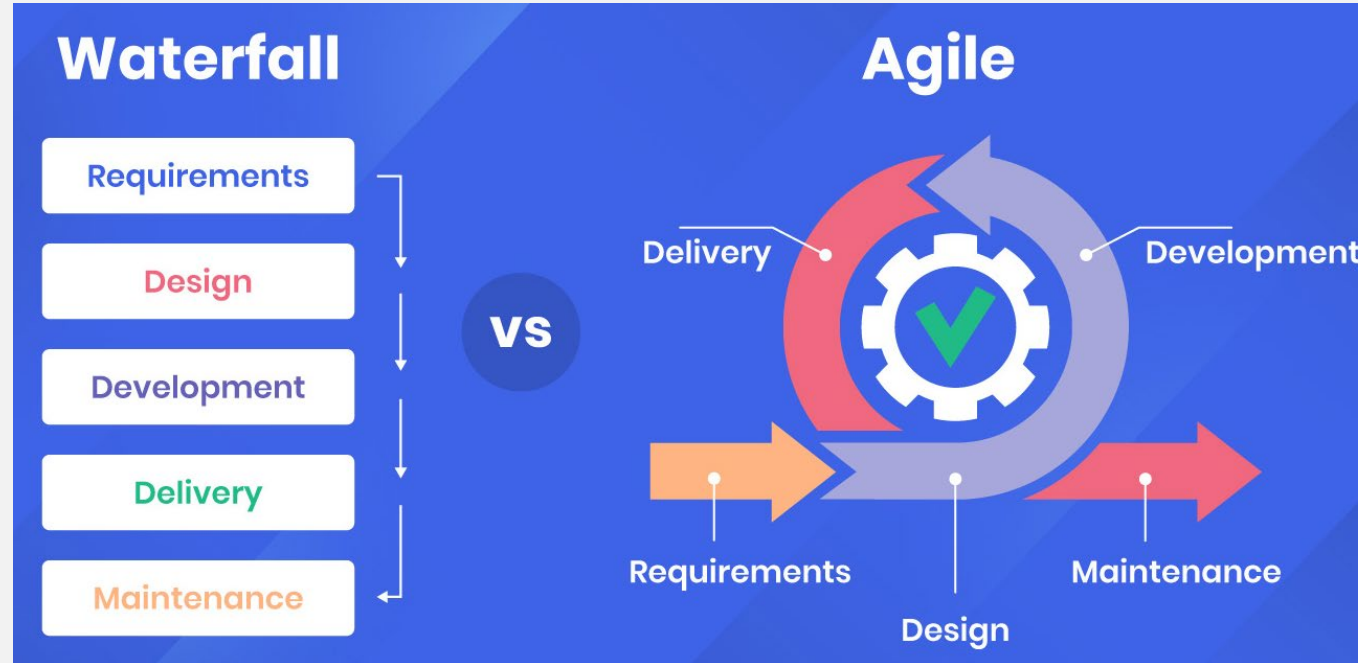

Agenda

- I will talk
- We will talk

Overview of the current landscape of software development

- Two ends of the development methodology spectrum:

- Most organizations fall somewhere along the spectrum

SPEAKER Evan Masters

Reducing Ambiguity in Requirements Through Multi-Modal Communication

Challenges in effectively conveying requirements to development

- Organizational structure (e.g., silos)
- Lack of full understanding
- Not experienced conveying at the right level

SPEAKER Evan Masters

Reducing Ambiguity in Requirements Through Multi-Modal Communication

Consequences of ambiguous requirements

- Feedback loops – lots of them!
- Rework
- Opportunity costs
- Missed deadlines
- Technical debt
- Erosion of trust and consequences

SPEAKER Evan Masters

Reducing Ambiguity in Requirements Through Multi-Modal Communication

Multi-Modal communication as an approach to rqmt communication

- What is multi-modal communication?
 - Using more than one 'mode' of communicating
- Most requirements are conveyed via text and text alone
 - Specs, User Stories, unstructured descriptions of an idea
- Multi-Modal Communication is used to:
 - Common Understanding of Requirements (CURE)
 - Reduce/eliminate ambiguity
 - Make requirements more accessible

SPEAKER Evan Masters

Reducing Ambiguity in Requirements Through Multi-Modal Communication

Ensure clarity, reduce ambiguity, and create a common understanding of the requirements

- My favorite example: Next Thursday
 - What I said (and meant!) vs what my boss interpreted

The image shows a calendar for October 2021. The days of the week are listed at the top: Sunday, Monday, Tuesday, Wednesday, Thursday, Friday, Saturday. The dates are arranged in a grid. The date October 14th is highlighted with a blue border, and the date October 7th is highlighted with a red border. This illustrates the ambiguity of the phrase 'Next Thursday'.

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
26	27	28	29	30	01	02
03	04	05	06	07	08	09
10	11	12	13	14	15	16

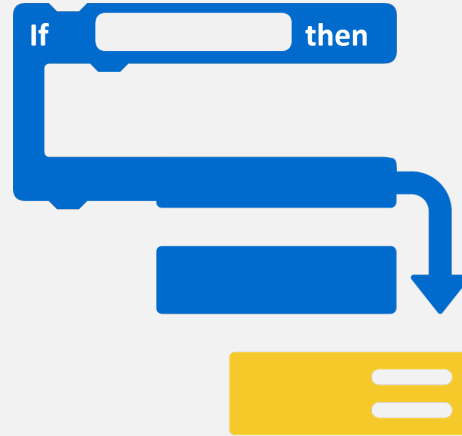

Thursday, October 14th, 2021

SPEAKER Evan Masters

Reducing Ambiguity in Requirements Through Multi-Modal Communication

Ensure clarity, reduce ambiguity, and create a common understanding of the requirements

- Increase accessibility of requirements
 - Broader audience
 - Different consumption styles

SPEAKER Evan Masters

Reducing Ambiguity in Requirements Through Multi-Modal Communication

Success: Some Case Studies

- Department of Defense Contractor
- Finance sector
- Start up working with Dept of Veteran's Affairs

SPEAKER Evan Masters

Reducing Ambiguity in Requirements Through Multi-Modal Communication

Multi-Modal vs. Traditional Methods

- Some specs rely heavily on written documentation
- Ambiguities – such as the word ‘biweekly’

biweekly 1 of 2 adjective

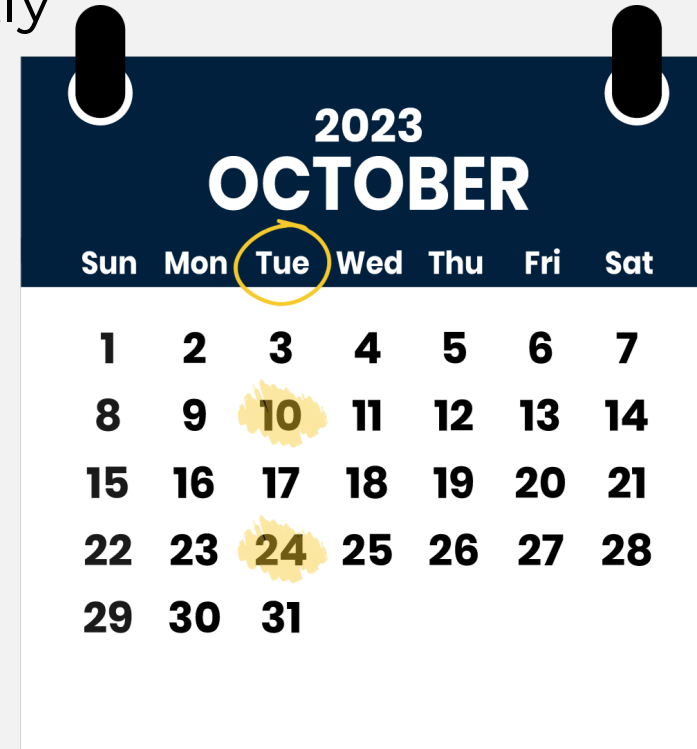

bi-week·ly (,)bī-'wē-klē

[Synonyms of biweekly >](#)

1 : occurring every two weeks

2 : occurring twice a week

• **biweekly** adverb

SPEAKER Evan Masters

Reducing Ambiguity in Requirements Through Multi-Modal Communication

Resetting the standard of communication

- Ensuring that all stakeholders have a common understanding of the requirements (CURE)
- Facilitating communication between stakeholders with different language skills or learning styles
- Making the requirements more accessible to stakeholders with disabilities
- Improving the efficiency and effectiveness of the requirement development and communication process

SPEAKER Evan Masters

Reducing Ambiguity in Requirements Through Multi-Modal Communication

Accuracy, Speed, and High-Quality

- If a picture is worth 1,000 words, how many are a video worth?
- Mockups and prototypes!
- Less rework and nipping tech debt in the bud

SPEAKER Evan Masters

Reducing Ambiguity in Requirements Through Multi-Modal Communication

Best Practices and Guidance

- Identify the stakeholders
- Understand the needs of stakeholders
- Choose the right communication methods
- Use multiple communication methods
- Be flexible and reactive
- Get feedback
- Continuously improve

SPEAKER Evan Masters

Reducing Ambiguity in Requirements Through Multi-Modal Communication

Conclusions

- Don't let PROCESS get in the way of quality
- Take the time to take a step back (often!)
- You're all on the same team
- What are YOUR experiences?
